

Get Lean with Chemical Management

Focus on the mission, and we'll focus on your chemical requirements

Partner with Henkel and achieve lean transformation of your on-site chemical processes spanning procurement to consumption:

- On-site inventory management.
- Increased product performance.
- Comprehensive coolant and fluid management expertise in metalworking, forming, casting, and other metal process applications.
- SPC analysis reporting to machine level using Henkel's Vision system.
- On-site engineering and material management support for part cleaners, metal pretreatment, process and wastewater treatment, paint detackification, paint line solvents, and many other chemical applications.
- Simplify your chemical supply chain from hundreds of chemical, sealant, paint, oil and adhesive suppliers to ONE.

*Percentage performance shown based on historical performance, varies by customer, and is affected by a range of factors including, but not limited to: Volumes, chemical portfolio mix, and production rates. An analysis of each site location is necessary to determine potential impact of deployment.
